1. PROJECT OVERVIEW

Project / Application Title:

Project Summary & Objectives:

Proposed Solution & Architecture:

Target Users & Access Roles:

2. SCOPE OF WORK & KEY DELIVERABLES

Engineering coverage includes **Discovery & Planning** (mapping workflows, role specifications), **UI/UX & Frontend** (responsive design), **Backend Logic & Database** (architecture, APIs, security), **Testing & QA** (defect fixing, pre-deployment checks), and **Production Deployment & Handover** (source code and training).

- ☐ Full Source Code Repository Handover
- ☐ Live Production Deployment & DNS Setup
- ☐ Secure Admin Credentials & Training Session
- ☐ API Documentation & Postman Collection
- ☐ Database Architecture & ER Diagrams
- ☐ Project Assets, Media & Graphic Templates
- ☐ Warranty & Support Window:

3. PROJECT-SPECIFIC COST ESTIMATE

#	Service / Cost Component	Calculation / Basis	Amount (INR)
1	Requirement Analysis & Pre-Development	Starting from ₹3,000 (Scope dependent)	₹
2	Project Setup & Initial Architecture Configuration	One-time configuration base	₹
3	Feature / Module Development	 features × ₹	₹

#	Service / Cost Component	Calculation / Basis	Amount (INR)
4	Domain Registration, Cloud Hosting & Servers	Actual / Estimated third-party charges	₹
5	Post-Launch Technical Maintenance & Support	Scope:	₹
6	Applicable Taxes (GST @ %)	Calculated on subtotal	₹
AGREED TOTAL CONTRACT VALUE:			₹

4. PAYMENT MILESTONES & SCHEDULE

Milestone Trigger	Percentage	Amount Payable	Target Due Date
Advance / Project Initiation	 %	₹	
Milestone 1: Design & Setup Sign-off	 %	₹	
Milestone 2: Feature Development / Beta Demo	 %	₹	
Milestone 3: Deployment & Code Handover	 %	₹	

5. INDICATIVE TIMELINE & TARGET MILESTONES

Phase	Scope / Activity Description	Target Date / Duration
Phase 1: Discovery	Requirement finalisation, workflow sign-off, technical blueprint	
Phase 2: Design & Setup	UI/UX wireframes, initial configurations, database init	
Phase 3: Development	Implementation of approved features and API endpoints	
Phase 4: Testing & QA	Functional review, vulnerability checks, defect corrections	
Phase 5: Deployment	Production release, knowledge transfer, repository handover	

6. COMMERCIAL TERMS & LEGAL CONTRACT CONDITIONS

- Scope Control & Variations:** All work strictly adheres to the approved features. Any additions, architectural modifications, or revision cycles exceeding agreed limits require revised written estimates and timeline updates.
- Client Obligations:** The Client agrees to furnish necessary branding assets, content, API keys, credentials, and timely approvals essential for meeting scheduled delivery targets.
- Third-Party Costs:** Domain registration, cloud server subscriptions, paid plugins/licences, and third-party SMS/email gateways are billed directly or at actual cost and are excluded from core engineering fees unless noted.
- Confidentiality & Intellectual Property:** Both parties maintain strict confidentiality regarding business logic, designs, and credentials. Full source code ownership and intellectual property rights transfer to the Client upon settlement of full and final invoices.
- Acceptance & Warranty:** Upon production deployment, a designated review window applies. Defects reported within the warranty window will be remediated without extra charge. Ongoing updates require a support agreement.
- Governing Law & Jurisdiction:** This Agreement shall be governed by the laws of India, subject to the exclusive jurisdiction of the competent courts at:

7. ASSUMPTIONS & PROJECT EXCLUSIONS

Specific Exclusions (e.g. content writing, stock media, hardware):

Special Project Assumptions / Dependencies:

8. EXECUTION & AUTHORISED SIGN-OFF

By signing below, both parties confirm their formal acceptance of the scope of work, timeline, financial estimates, and legal terms set forth in this Master Services Agreement.
